Subject Index

A

Abuse of psychiatrists

The Russian concept of schizophrenia: A review of the literature, 24(4):537

Acetylcholine

Schizophrenia, sensory gating, and nicotinic receptors, 24(2):189

Acoustic startle

Sensory gating in rats: Lack of correlation between auditory evoked potential gating and prepulse inhibition, 25(4):777

ACT. *See* Assertive community treatment

Active/withdrawal syndromes

Cognitive asymmetry patterns in schizophrenia: Active and withdrawn syndromes and sex differences as moderators, 25(2):349

Functional neuropsychophysiological asymmetry in schizophrenia: A review and reorientation, 25(1):91

Affect

Anhedonia, positive and negative affect, and social functioning in schizophrenia, 24(3):413

Age factors

A candidate molecule approach to defining developmental pathology in schizophrenia, 24(2):303

Causes and consequences of the gender difference in age at onset of schizophrenia, 24(1):99

Expressed emotion and relapse in young schizophrenia outpatients, 25(2):377

Performance of the Continuous Performance Test among community samples, 24(1):163

Schizophrenia and delusional disorder in older age: Community prevalence, incidence, comorbidity, and outcome, 24(1):153

Alcohol abuse. *See also* Substance abuse
Patterns of current and lifetime substance use in schizophrenia, 24(3):443

Schizophrenia, alcohol abuse, and violent behavior: A 26-year followup study of an unselected birth cohort, 24(3):437

Angiotensin-converting enzyme

Higher cerebrospinal fluid angiotensin-converting enzyme levels in neuroleptic-treated than in drug-free patients with schizophrenia, 24(3):391

Anhedonia

Anhedonia, positive and negative affect, and social functioning in schizophrenia, 24(3):413

Familial liability to schizophrenia: A sibling study of negative symptoms, 25(4):827

Animal models

Laterality in animals: Relevance to schizophrenia, 25(1):41

Schizophrenia research: A biennium of progress: Proceedings from the Sixth International Congress on Schizophrenia Research, 24(4):501

Using an animal model of deficient sensorimotor gating to study the pathophysiology and new treatments of schizophrenia, 24(2):285

Antioxidants

Tardive dyskinesia: Possible involvement of free radicals and treatment with vitamin E, 25(4):731

Antipsychotic drugs. *See also* Neuroleptics; Treatment; specific drugs by name

Antipsychotics: Past and future: National Institute of Mental Health Division of Services and Intervention Research Workshop, July 14, 1998, 25(2):395
